Overall Park

- Consider providing more shade with trees and/or shade structures.
- Consider adding more openings in the hedge for connectivity.
- This would be a great addition to the culture, day-life and night-life of Dallas. As well as the park, basketball courts and a medium-large skate park would be very appreciated and used.

Park Connection to Community

- Enhance pedestrian connections and integration from surrounding neighborhoods as much as possible.
- Enhance connections to the nearby Dart station.
- Major streets surround the park. Consider adding pedestrian friendly and safe cross walks where possible.
- The proposal of bike share is great for the neighborhood.

Play Areas

- The water features will be great attractions with high play value.
- Consider a larger play area and a wide range of environmental play.

Under the Freeway

- Consider adding more seating to the court and skate amenity area.
- Consider expanding size of the skate park.
